Using GoToWebinar

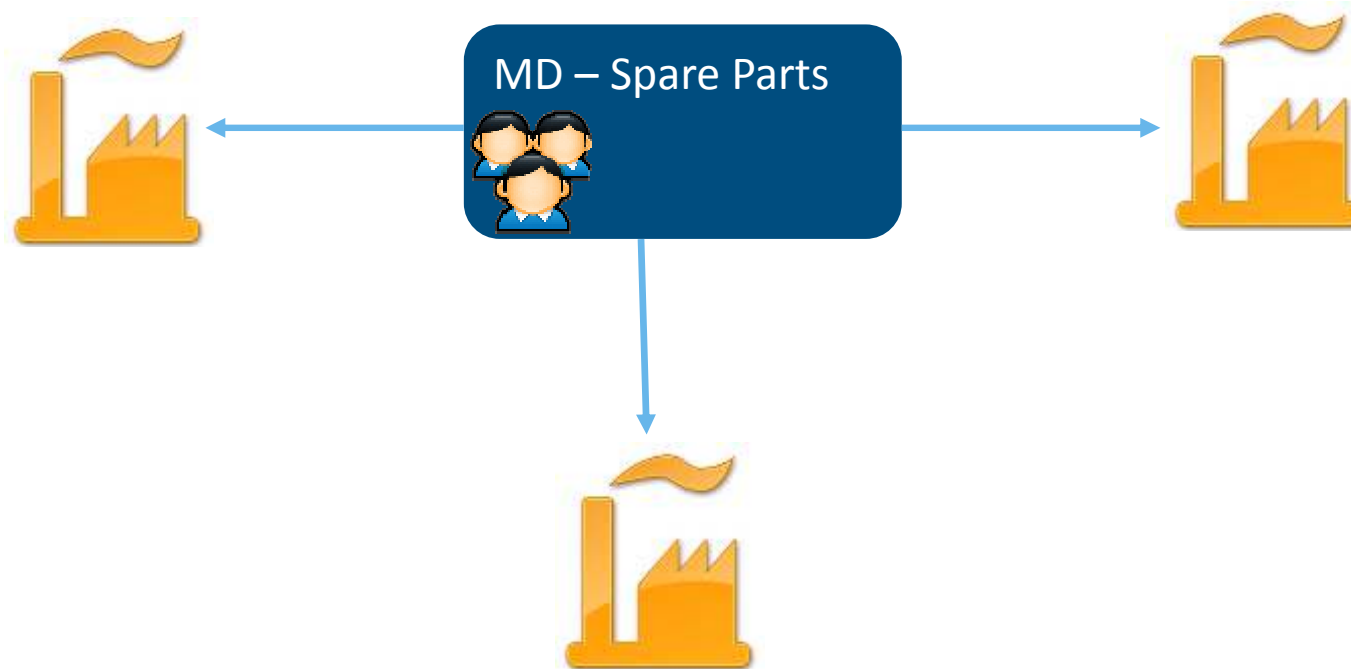

- Please use GoToWebinar questions panel during the webinar
- After the webinar we will send you the slidedeck and a link to the recording

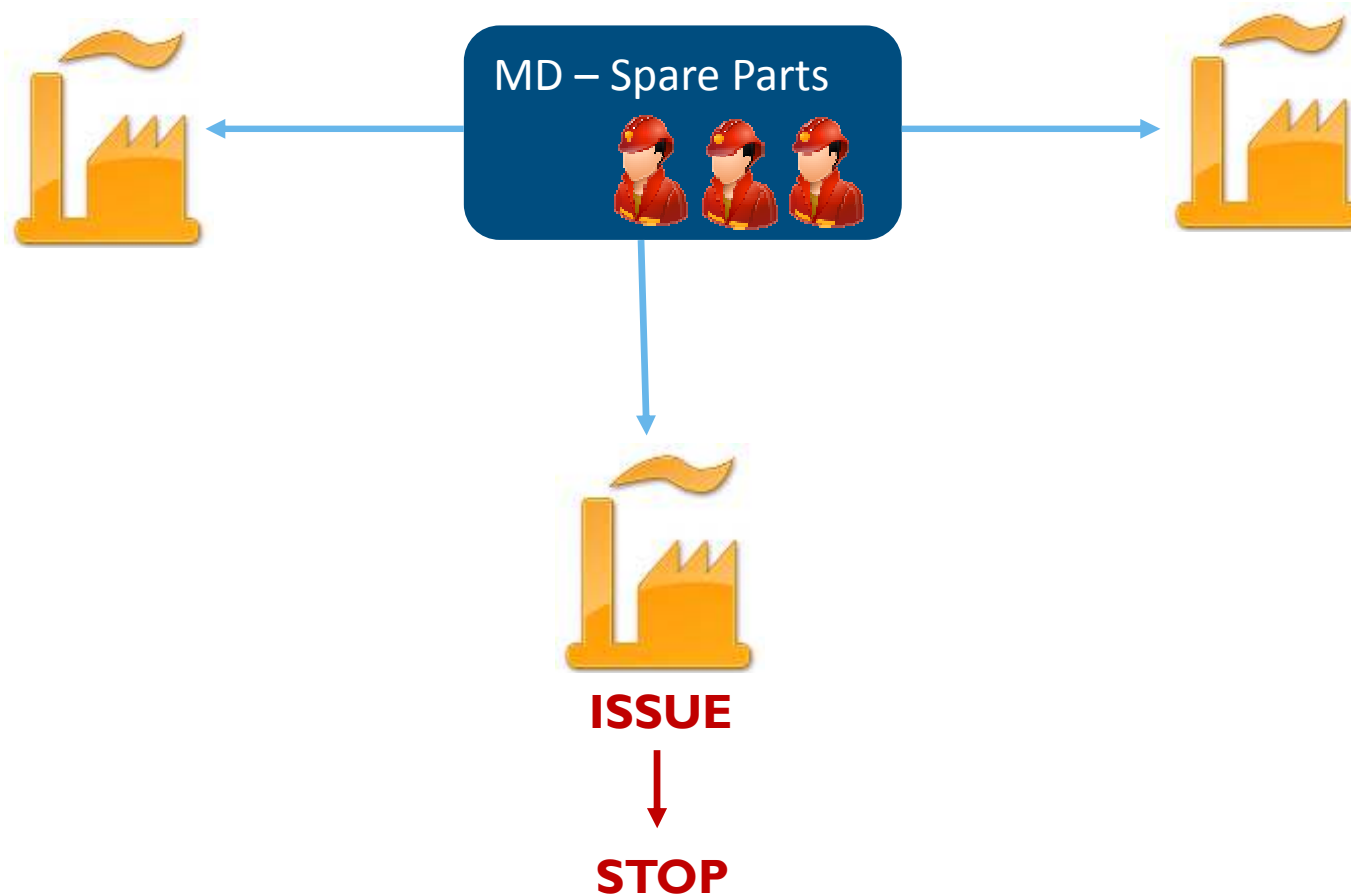

Fortune 500 Example (FMCG)

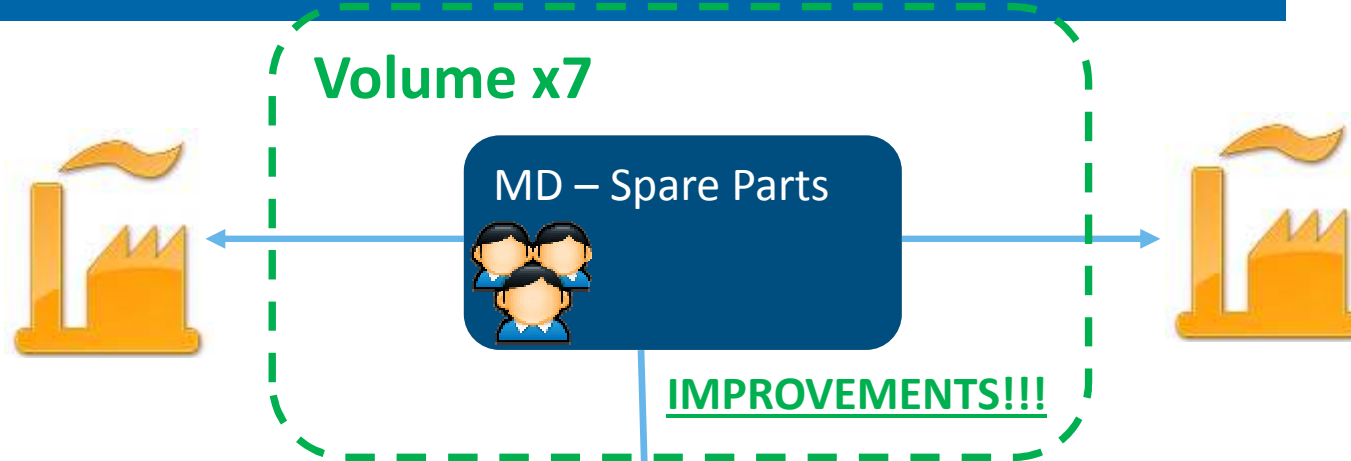

Fortune 500 Example (Oil and Gas)

Fortune 500 Example (Oil and Gas)

Fortune 500 Example (Oil and Gas)

DIRECT BENEFITS:

- More volume of work
- Same team
- Less issues

LESS WASTE

~~ISSUE~~

~~STOP~~

INDIRECT BENEFITS:

- Time for added value
- More production
- More business

MORE VALUE

Lean Data Management

Reactive DG

1. Business defines validation criteria for “Business Fit”
2. Scorecard is made available
3. Scorecard results drive data correction for “Fit”

Proactive DG

1. “Business Fit” rules added as front-end edits
2. Front-end edits prevent bad data – DQ Firewall

Use DQ Rules and other needs to establish Rule Edits in data entry forms

Identify what isn't working and do something about it

Data Quality Firewall

Front End Edits
Pro-Active DG

DQ Report

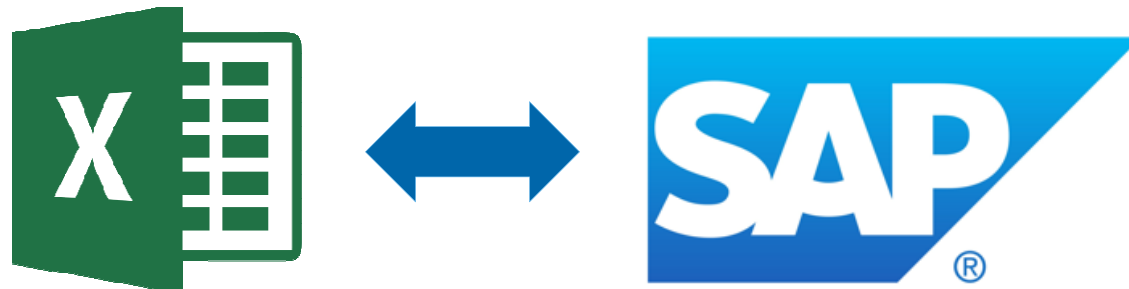

Report what's wrong

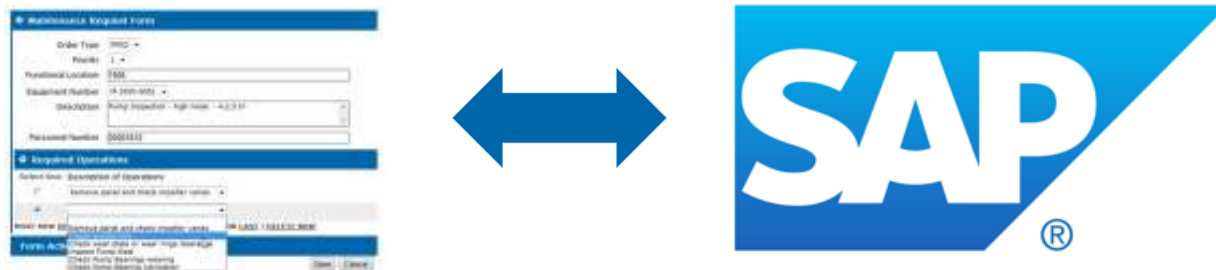

Fix it

Demo

- Materials management

- Purchase Order creation

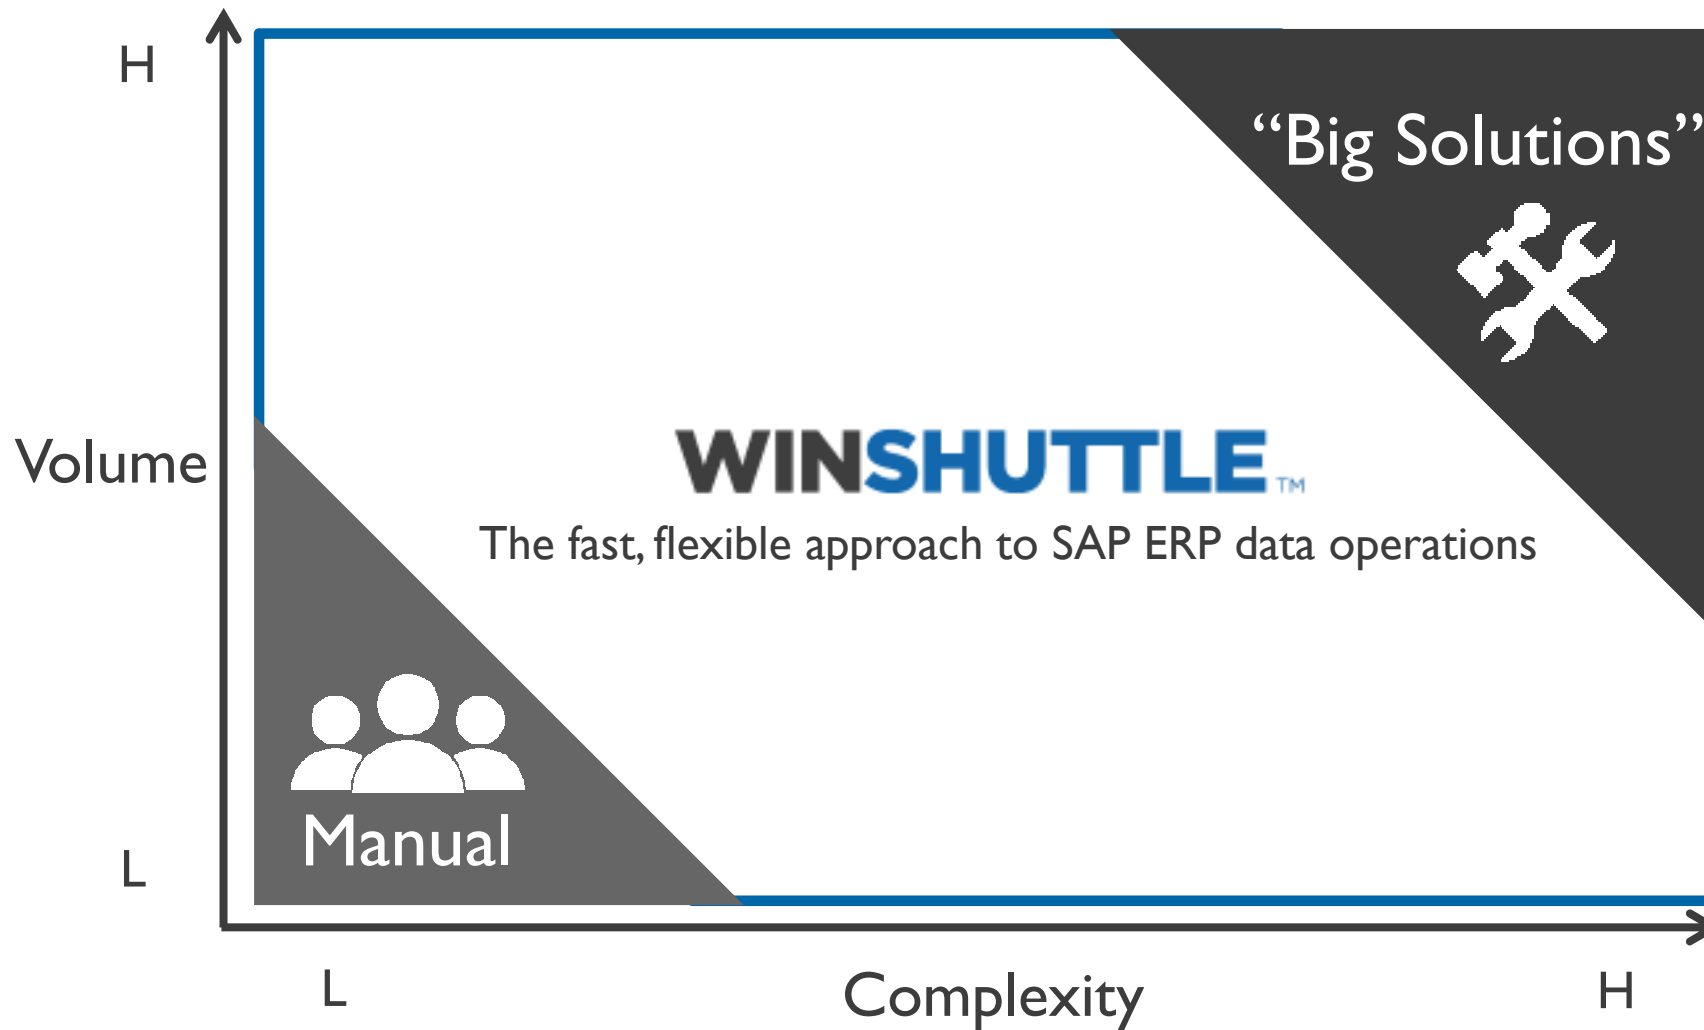

Demo

- Materials management
 - Data Collection
 - Excel spreadsheet
 - Data Validation
 - At entry point – based in SAP & Excel
 - Data Movement
 - Origination, notification, approval and update

Demo

- Purchase Order Creation
 - Using Winshuttle Composer & Winshuttle Foundation
 - Data Collection
 - Purchase Order data
 - Data Validation
 - SAP or custom rules at data entry point
 - Data Movement
 - Originator, notification, reviewers, approvers and updaters
- Multidevice deployment

Lean Data Management

Apply Lean to your SCM processes

Quality

Improve inefficient processes.

Add Value

Improve SLAs, become more strategic.

Flexibility

Make continuous improvements.
